SUMMARY

Business Information Systems student and Full Stack Developer Intern with proven experience in building end-to-end web and mobile applications. Proficient in Laravel, Flutter, and UI/UX design (Figma). Recognized for developing an automated TOEIC management system that received a National Copyright (DJKI) certification. A highly adaptive fast-learner, adept at rapidly mastering new technologies and translating complex business requirements into efficient, scalable, and user-centric system solutions.

SKILL

Hard Skill

- **Programming Languages:** PHP, Java, Dart, Python
- **Web & Mobile Frameworks:** Laravel (MVC, Eloquent ORM), Flutter
- **Frontend & Design:** HTML5, CSS3, UI/UX Design (Figma)
- **Backend & Databases:** RESTful API Integration, PostgreSQL, MySQL, SQL Server
- **Tools & Version Control:** Git, GitHub, GitLab, Cisco Packet Tracer

Soft Skill

- Communication
- Public Speaking
- Time Management
- Agile Adaptability
- Problem Solving
- Critical Thinking

EXPERIENCE

Full Stack Developer Intern – PT. Multi Spunindo Jaya Tbk.

Jan 2026 - Jul 2026

Contributing to the development of internal company systems with a focus on business process efficiency.

- Developing a web-based Employee Recruitment System by upgrading and migrating the previous system from the CodeIgniter (CI) framework to Laravel.
- Designing system workflows through the creation of flowcharts, class diagrams, and other technical documentation.
- Designing intuitive User Interfaces (UI) using Figma prior to the code implementation stage.
- Collaborating with the IT team to ensure system functionality aligns with the requirements of the HR department.

Full Stack Developer – SIMTOEIC (System TOEIC) POLINEMA

2025

- Built SIMTOEIC, a full-stack web-based TOEIC Management Information System using Laravel, MySQL, and Stisla for exam registration, scheduling, and result announcements at Politeknik Negeri Malang.
- Replaced manual processes (Google Forms and Excel) with a centralized and efficient system supporting both free and paid TOEIC exams.
- Implemented automated Telegram notifications and role-based access for students, administrators, and academic staff.

Full Stack Developer – HRIS (Human Resource Information System)	2025
- Developed a mobile-based HR management system using Flutter and Laravel, specifically focusing on attendance tracking and employee scheduling modules. - Engineered the complete solution as a Full Stack Developer, building RESTful APIs with Laravel for the backend and integrating them with a responsive mobile interface using Flutter. - Implemented real-time data synchronization for clock-in/out activities and developed a calendar-based scheduling system that supports custom holiday configuration, ensuring seamless communication between the mobile client and the server.	
Back End Programming – SiPreman (Sistem Informasi Prestasi Mahasiswa)	2024
- Developed backend functionalities for a web-based system to manage student achievement recording, validation, and leaderboard generation. - Implemented CRUD operations, database integration, and data validation using PHP and MySQL to ensure accurate and dynamic data processing. - Integrated backend services with the frontend to support role-based access and notifications for Admins and Students.	
IT Support Intern – Maju Hardware Cellular And Gadget	Nov 2021 - April 2022
- Performed custom PC assembly and hardware troubleshooting, ensuring all components met technical specifications and client requirements. - Conducted end-to-end installation and configuration of operating systems and essential software for newly purchased laptops and desktop units, ensuring systems were ready for immediate use.	

ORGANIZATIONAL EXPERIENCE

Member - Palang Merah Remaja	Feb 2021 - May 2023
Madiun, East Java, Indonesia	

EDUCATION

Business Information Systems (Undergraduate)	08/2023-07/2027 (Expected)
Polytechnic State of Malang Malang, Indonesia	
Computer and Network Engineering	2020-2023
State Vocational High School 5 Madiun Madiun, Indonesia	

CERTIFICATIONS

<u>Intellectual Property (Copyright) – SIMTOEIC Web-Based System</u>	2025
Registration No. 000924918 – Issued by DJKI (Ministry of Law and Human Rights)
